K&C

Beyond Outsourcing®

Krusche & Company 2026

1 **Missed deadlines**

2 **Budget overruns**

3 **Security risks**

4 **Legal exposure**

5 **Growth blocked**
not because of vision, but because delivery fails

Scaling Challenges

Your business can't grow if your IT delivery can't keep up.

K&C

Current market landscape

40 %

of IT budgets are allocated to maintaining existing systems

Source: Gartner

30 %

of technology development projects suffer from delays

Source: Boston Consulting Group

20 %

of budgets redirected to technical debt

Source: McKinsey

informa

Breaking the Monolith

Challenge

- Legacy Ember/Groovy stack blocked scalability, hiring, and innovation
- High infrastructure costs and poor DevOps slowed delivery
- Needed zero-downtime migration and white-label capabilities

Solution

- Migrated to modern React/Node.js microservices on AWS
- Improved performance, SEO, and cut CI/CD costs with new tools
- Added real-time monitoring, stronger security, and white-label support

Facts

- **Duration:** Since 2015
- **Team members:** 40
- **Tech-stack:** React, Node.js, AWS, Jenkins & more

K&C

AJNA

Frontend Meets Blockchain: Building the Ajna Protocol dApp

Challenge

- Build a complex, user-friendly Web3 frontend with smart contract integration
- Ensure high security, zero downtime, and smooth UX for a permissionless dApp
- Manage technical complexity while keeping the interface accessible

Solution

- Developed a secure, responsive React frontend with real-time updates
- Integrated Ethereum smart contracts and advanced wallet logic
- Delivered full testing, onboarding docs, and a seamless user experience

Facts

- **Duration:** Since
- **Team members:** 4
- **Tech-stack:** React, Apollo, ethers.js, web3 & more

K&C

From Frustration to Innovation: MyDays' Booking System Overhaul

Challenge

- Needed a simple UI and seamless integration with booking options
- Required scalability, real-time reliability, and flexible voucher redemption
- System had to support high booking volume and instant delivery

Solution

- Built scalable microservices on AWS with smooth integrations
- Enhanced UX with flexible redemption and instant voucher delivery
- Delivered a reliable, cloud-ready booking system

Facts

- **Duration:** Since
- **Team members:** 15
- **Tech-stack:** React, Node.js & more
